Employment

Research Analyst, Federal Reserve Bank of Cleveland Jul 2022 - Sep 2025

Work with economists to conduct research in labor economics, urban economics and public policy. Day-to-day tasks include sourcing and wrangling data, creating visualizations and implementing statistical models and validation techniques. Also involves formulating research ideas and selecting appropriate empirical methodology to answer questions of interest. Additional responsibilities include maintaining and improving the bank's public-facing indicators and products, and preparing briefing materials to support the research department in the policymaking process.

Computer Skills

Stata, R, Python, Julia, Haver, GitHub
